CUSTOM CBT SOFTWARE FOR SCHOOLS

WHAT IS AVAFLEX?

Avalanche flex is a software solution for conducting both internal and external examination on computer based testing platform {CBT}. Avalanche flex provides you the whole tools to conduct a successful computer based examination. It helps from imputation of questions to managing of examination and finally reporting. it is flexible in the sense that it can accomodate institutions of learning or organizations to input their personalized questions in a CBT platform and administer examination.

You could easily customize the AVAFLEX interface to suite your taste.

HOW IT WORKS?

I see now you are eager to know how it works, well let me explain. Avalanche flex is user-designed into three different units, with each performing particular functions required in conducting every examination. Each of these units make it very easy and possible to edit or create questions, grade each students answers, compile results and even sell past questions(in the “market place” section). These units include Exam Loader, Flex Server and Flex Client.

Exam Loader
For editing
questions.

Flex Server
The engine
room.

Flex Client
The end
interface

Real-time grading system in place to make report collation super easy just for you

EXAM LOADER

Avalanche Exam Loader is one of the applications on the Avalanche Flex Suite. Just like Microsoft office word has been a favorite editor for preparing paper based examination for printing, Exam Loader is turning to be a favorite editor for preparing questions for computer based test(CBT). This software unit brings you opportunity to flex while preparing questions for your examination with the “wizardish” function that can convert existing questions in PDF or MsWord to flex type. Other than the wizard tool, there are several tools that aid the editing process for examiners, human resource managers, ICT administrators, lecturers and teachers.

HERE ARE THE TOOLS
YOU WOULD FIND ON
EXAMLOADER

- * TEXT EDITOR
- * GRAPH PLOTTER
- * GRAPHICS EDITOR
- * TABLE MAKER
- * PDF & OFFICE WORD EXTRACTOR
- * IMPORT WIZARD

You use the import wizard tool to convert your questions already in PDF or office word to Flex CBT questions by just clicking a buttons

FLEX SERVER

Avalanche flex server is the heart of Avaflex suite and also the brain that determines how every aspect of the examination administration is done.

Avaflex was designed to give you comfort and flexibility while administering examination. Imagine that all you have to do in conducting an examination for up to 120,000 examinees at a time is just clicking a button and you have the result and reporting just immediately after the examination. Now stop imagining, the reality is within reach. The Flex Server provides you with this wonderful ability that you thought could only be imagined.

Features of avalanche flex server:

- Customize the CBT software to your institution
- Register and manage examinees details.
- Real-time graphical presentation of examinees performance.
- Examination monitoring service.
- Manages Avaflex client behaviour and functionalities
- Set exam time.
- Result export to MsWord, Excel, PDF and print.
- Provides market place to download existing CBT questions.

If you are working on the Avaflex and there is power outage, no worries because of the auto-resume and auto-backup ability designed for you by our programmers.

FLEX CLIENT

Avalanche Flex Client is the examinee's end of the application, can also be said to be the end interface of the whole settings done at the server (avalanche flex server) of the application. Flex client is the fusion of answer sheet and a question paper required for examinees/students to take examination. Flex client consumes the questions pumped from the heart; Flex server. After examination, Flex client returns the questions and answers back to Flex server for analysis

Examinees/Students just need to use the mouse to pick the correct option

Avalflex has a high user interactivity, so its very easy to use.

WHY AVAFLEX?

The real question why not Avaflex?
Why not the future instead of the past?
Why not innovation instead of history?
Why not flexibility instead stress?
Why not comfort instead of discomfort?

YOU
CHOOSE

You would save money on printing and answer booklet
with Avaflex

WHO IS AVAFLEX DESIGNED FOR?

Avaflex was created with the intention of reducing the stress of administering examination to its bare minimum, so any organisation/institute which has the examination process in its curriculum should be updated with the Avaflex suite. If you do not fall into any of these categories, i strongly advise that you do not pick up Avaflex

- * ORGANISATIONS(for recruitment test and appraisals)
- * UNIVERSITIES
- * POLYTECHNICS
- * SECONDARY SCHOOLS
- * EXAMINERS
- * EXAMINATION BODIES

You would be afforded more productivity in your institution or organisation
